# CUSTOM MADE MEASUREMENTS

Enter your measurements on the right, use the instructions on page 2 to get the most accurate results. Use cm or inches\*.

**"D"** = INSIDE OF CALF (MEASURE FORM "E" LINE TO THE TOP OF THE BOOT SOLE.)

<b>A =</b>	Left	Right
cm/inch		

<b>B =</b>	Left	Right
cm/inch		

<b>C =</b>	Left	Right
cm/inch		

<b>D =</b>	Left	Right
cm/inch		

<b>E =</b>	Left	Right
cm/inch		

<b>F =</b>	Left	Right
cm/inch		

<b>G =</b>	Left	Right
cm/inch		

<b>H =</b>	Left	Right
cm/inch		

<b>I =</b>	Left	Right
cm/inch		

<b>J =</b>	
cm/inch	

<b>K =</b>	
cm/inch	

\* Be sure to indicate if you are using cm or inches. Cross one out!

# CUSTOM MEASURING GUIDE

The most accurate way to take measurements for chaps is sitting on your horse, with legs in stirrups for the way you ride. You will need, a **tape measure**, some **tape** about 1.5cm or 1/2" wide, a **pen**, and a **friend**.

**Read through all the instructions first, using the sketch on page 2 as a reference. Then measure.**

**A** - Measure from the top of the boot heel to the top of the top of the desired chap height.

(Some people like them taller than others.)

**B** - Measure from just under the knee cap bone, around the curve of the instep, to the end of the zipper or laces.

(Zipper or laces will be covered up.)

**C** - Measure from the crease behind the knee to the top of the boot heel at the center back.

**D** - The crease from behind the knee, on C, continues up the inside of the knee.

Use this crease to measure down inside of calf to the top of the boot heel.

**E** - Using the same crease behind the knee, measure around the top of the leg.

Make sure you can move the tape left and right a bit. We don't want them too tight

Mark this line with tape (E).

**F** - Now find the widest part of your calf, measure around it.

Mark the line with tape (F).

**G** - Measure around the top line of your paddock boots.

Mark this with tape (G).

**H** - Measure from the center of the top tape (E) to the center of the middle tape (F).

# CUSTOM MEASURING GUIDE

**I** - Measure from the center of the middle tape (F), to the center of the bottom tape (G).

**J** - Measure from the center of the bottom tape (H) to the top of the boot heel.

**K** - Measure over the top of your paddock boots the position where your spur strap normally sits.

Measure from the top of the sole each side.

(This measurement is very important. Have a trainer assist if you are unsure.)

Congratulations! You are now one step closer to having the best riding chaps ever designed!

Double check all your measurements as you go, and enter them onto page 2. Be sure to indicate if you are using cm or inches, either are fine.

You can scan as a pdf and return to [CustomerService@IMPECCABLEEQUERRY.com](mailto:CustomerService@ImpeccableEquerry.com), or snail mail to our office; **THE IMPECCABLE EQUERRY LLC**, 9680 Six Mile Road NE, Rockford, MI 49341

If you are having any problems with taking measurements, feel free to give us a call, we can talk you through it - 434-229-1159.

We can also organize a video chat through FaceTime or Skype.

We are so excited to get started on your unique style! We will be in touch very soon!
